

KURNELL LAND FILL COMPANY

CONDITIONS OF ENTRY

This landfill depot is licensed by the Environment Protection Authority (EPA) as an Inert Landfill, Class II. The following materials are prohibited:

- Asbestos waste (including stabilised asbestos cement products)
- Green waste, including garden waste
- Physically, chemically or biologically fixed, treated or processed waste
- Other materials designated as excluded materials in the published "Screening and Refusal Procedure for Non Approved Wastes", a copy of which is available on request.

The Company reserves the right to reject any materials it considers unsuitable. Customers may be required to remove any such materials dumped on site in contravention to the Conditions of Entry, or they will be removed to a suitable disposal facility nominated by the EPA at the customer's expense.

Customers are directed to obey all signs and instructions by depot staff.

No smoking is permitted on this facility.

Customers must wear reflective vests when on site.

Customers must have suitable protective equipment to ensure safe removal of waste.

All children to remain in vehicles.

The Company will not be responsible for any damage or injury whatsoever resulting from customers failing to obey these Conditions of Entry.
