REGYP

GYPSUM SALES

ReGyp offer a competitive, high quality, recycled product suitable for building and agricultural applications. Raw material savings and a 'greener' image make ReGyp a viable and sustainable choice.

The general recycled specification for manufacturing and agricultural uses is tabled below. Other specifications and blends can be provided on request.

Due to the high purity of Regyp gypsum, for agricultural applications it can be applied to land at rates of up to 20% less than most mined sources of agricultural gypsum. **Saving you money!**

Gypsum	Calcium Sulphate Di-hydrate	CaSO ₄ 2H ₂ O	90 - 96%
Lime	Calcium Carbonate	CaCO ₃	< 5%
Salts	Sodium Chloride	NaCl	< 0.05%
Paper	Organics		< 2%

REGYP
